

ACKNOWLEDGEMENTS

It is my personal pleasure to acknowledge a grant from Geigy Pharmaceuticals which allowed this Colloquium to take place. The grant covered the immediate expenses of the Colloquium, and also helped towards the cost of its organization and the pre-circulation of all contributions.

We are particularly indebted to Dr. Cyril Maxwell and Mr. A. J. Ruff (Symposia Officer); to Mrs. Lesley Mein, Research Secretary at the Nuffield Child Psychiatry Department, who provided invaluable secretarial and administrative assistance; and to Miss Elizabeth Tweddle, Research Assistant at the Nuffield Child Psychiatry Department who helped with the organization and running of the Colloquium.
