

Subject index

A

- Abstract thinking, 141, 143, 158
- Adverse life experience, 36, 39, 48, 64, 123, 125
- Aetiology, 15, 105, 120, 190, 191
- Age of children
 - gestational, 12
 - chronological, 3-5, 18, 118, 139, 142, 147
- Anterospective/prospective research, 53
- Antisocial, *see* Behaviour
- Appetite, 69, 179
- Articulation, Edinburgh Test of, 18, 230, *see also* Speech
- Assessment, clinical, *see* Psychiatric, Psychological assessment; *also* Diagnosis, Classification
- Attention-span, 71
- Attitudes,
 - maternal, 46, 127-128
- Audiometry, *see* Hearing, assessment of
- Auditory comprehension/perception, 81, *see also* Language comprehension/reception; Verbal comprehension
- Auditory-visual integration, 98, 100, 107, 204, *see also* Intersensory performance
- Auditory-vocal functioning, 80, 221
- Autism, infantile, 5, 7, 14, 73, 190

B

- Babbling, 24, 26-27
- Baby talk, 124, 126, 130, 196
- Background factors of speech retarded

sample, 4, 8-13

Background factors of hearing impaired sample, 120-130

Behaviour

- antisocial, 71, 74, 179, 183
- assessment of, 68-69, 108, 109, 182, *see also* Temperament
- dimensions of, 69
- factors/variables, 69, 105, 112
- findings on, 68, 178, 182-183, 197-198

Behaviour Questionnaire, Rutter's Teacher, 70-71, 177-179, 182-183

Biological factors, 25, 113

Birth,

- injury, 6
- order, 12-13
- weight, 12
- Bladder control, 10-11, 26, 69, 74
- Brain injury, *see* Cerebral dysfunction

C

- Cerebral dysfunction, 86, 122, 170-171
- Cerebral palsy, 7, 16
- Classification,
 - clinical, 5-8, 104-105, 118-119
 - statistical, 105, *see also* Statistical analysis
 - validation of, 82
- Cleft palate, 6, 7, 15, 118
- Clinical syndromes, 5, 80
- Cognition/intelligence, 29-39, 142
- Cognitive development, 51-66, 100, 137, 143
- Cognitive/intellectual factors, 97
- Cognitive/intellectual functioning,
 - comment on, 55-57, 132

248 Subject index

- Cognitive/intellectual functioning and dysphasia, 65, 90-92
 - Cognitive/intellectual functioning, findings on, 55, 63, 84, 132-133, 141
 - conceptual maturity, 148, 153, 161
 - conceptual abilities of hearing impaired group, 140, 153, 158
 - memory, 139, 158-159
 - non-verbal abilities of hearing impaired group, 137-138, 143, 165-166, 171, 196
 - non-verbal abilities of speech retarded group, 10, 57, 63, 86, 93, 153, 196
 - perceptual-motor abilities,
 - of hearing impaired group, 166, 196
 - of speech retarded group, 63, 81, 192
 - performance intelligence,
 - of hearing impaired group, 138, 153, 169
 - of speech retarded group, 55, 201
 - verbal abilities,
 - of hearing impaired group, 138, 143, 163-165
 - of speech retarded group, 55-57, 85, 112, 192
 - verbal difficulties, 85, 183, *see also* Speech
 - verbal intelligence, *see also* Performance minus verbal IQ
 - of hearing impaired group, 138, 143
 - of speech retarded group, 55, 201
 - Visual Concepts Test, Skemp's, 84-85, 227
 - findings on, 85, 206
 - Visual Perception, Frostig Developmental Test of, 84, 149, 150-151, 157-158, 170-171, 220
 - vocabulary comprehension, 74, 84, 98
 - Cognitive/intellectual functioning, 55
 - models of, 138, 168-170
 - Cognitive/intellectual handicap, 16, 159-162
 - Cognitive style, 62-63, 165, 171, 196
 - Cognitive testing, 55-57, 148
 - Cohort of speech retarded children, 3
 - Communication code/style,
 - verbal, 29, 60, 97-98, 100, 113, 226
 - Communication,
 - disorders of, 14, 187
 - manual *vs* oral, 134
 - see also* Manual communication/gesture
 - Comprehension, *see* Auditory comprehension/perception
 - difficulties of, 58, 85-86, 95, 158
 - vocabulary, *see* Cognitive/intellectual functioning, findings on
 - Conceptual maturity, 86, *see also* Cognitive/intellectual functioning, findings on; Draw-a-man Test
 - Conceptual thinking, 140-141, 158
 - Confidence,
 - child's level of, 71
 - Control group, 4, 35, 53, 148
- D
- Deaf group,
 - profoundly, 118, 120, 149, *see also* Hearing impaired group; Hearing group, partially
 - Deafness, 15-16
 - definition of, 148
 - Developmental
 - delay, 7, 33-35, 138, *see also* Walking milestone
 - difficulties, 7, 120, *see also* Family, developmental difficulties in
 - factors, 112, 114
 - milestones, 3-4, *see also* Walking milestones; Speech, specific delay of; General delay
 - disorders, 5-8, 10-11
 - disorders of language, 17
 - speech disorder syndrome, 6-7, 8, 79-96
 - Diagnosis, 5-8, *see also* Classification
 - Draw-a-Man Test, 84, 149, 150, 223
 - Dysarthria, 5, 6, 7, 15
 - Dyslalia, 6, 7, 79, *see also* Speech disorders, specific developmental
 - Dysphasia
 - acquired, 6, 15
 - developmental/childhood, 6, 7, 15, 79-80, 86, 190
- E
- Early Walkers, *see* Speech, specific delay of; Walking milestone
 - Educational achievement/attainment,
